THE VAULT: PRESERVING THE PAST AND PREPARING FOR YOUR FUTURE

NET WORTH SUMMARY

You may remember going to the bank with your grandparents when they needed a document from their safe deposit box. In your eyes, it was an impressive process — though it seemed to take a long time. There were multiple keys involved, signatures and an escort to a private room.

FINANCIAL REPORTS

Once the box was opened, you probably watched them shuffle through several documents, making stacks on the table until they found what they were looking for. Then they had to copy it by hand. Maybe the safe deposit box even held family heirlooms, like great-grandma's wedding ring or the watch that a beloved uncle swore protected him when he fought in World War I.

ACCOUNT INFORMATION

After leaving, your grandparents likely went to meet with their attorney and financial professional to discuss their finances and estate. As they sorted documents, there's a good chance something was missing. So, they had to go back to the bank and repeat the process.
